The CP 30 shears use a pneumatic circuit in compliance with the 626 normative. For a regular running, all you need is a compressor with continuous pressure supply at 7 atm. The CP 30 shears are strong and reliable, they can be used for all purposes, -even the most demanding -, and do not require any special maintenance. Developed and tested for cutting electrical cables, it guarantees a fast, practical and economic job. 10 to 30mm thick multipolar cables.

28mm soft unipolar cables, 22mm rigid cables.  
Specifications valid for cables coated with rubber or PVC protective sheath.
